

Flatwork ironer

HM 16-83

Flatwork ironer, HM 16-83

The flatwork ironer HM 16-83 is a rotary ironer and is heated electrically. With a width of 830 mm and a diameter of 160mm, this ironer is ideal for the ironing different textiles in your business. Made from aluminium and steel, this roller is robust and hardwearing, perfect for constant and everyday use. The variable roller speed lets you work at your own pace, with the height allowing you to be seated whilst rolling. The finger guard ensures ultimate safety.

Performance specifications

- Roller diameter: 16 cm
- Roller length: 83 cm
- Ironing throughput: 15 kg/h according to DIN 11902 at 20% initial residual moisture.

Control system

- Infinitely variable temperature control
- 5 roller speed settings

Dimensions / Weight

- Dimensions H/W/D (mm): 960/1050/380

Features and benefits
