

Wascator

Reference washer extractor

FOM71 CLS

The wascator FOM71 CLS, reference washer extractor.

The Wascator FOM 71 is the reference machine for washing performance tests in the appliance industry and for textile-testing. It provides flexibility, traceability and repeatability thanks to a precise speed control, highest accuracy of bath temperature and excellent water-filling accuracy.

Features and benefits

- Meets IEC and ISO international standards
- Suitable for testing washing effects of detergents and chemicals and for textile quality control
- Suspended drum construction allows a high extraction force. No foundation required
- Small space between outer/inner drum for efficient use of water and detergent
- Dual water control of volume (weight) and level
- Built in scale for precise volume control, accuracy:
 - volume control +/- 0.2 litre/bath
 - level control +/- 0.8 litre/bath
- Equipped with Clarus Control® - a fully programmable electronic timer
- Frequency controlled motor system for flexibility in programming and precise speed
- Test tap for water samples
- Stainless steel drum assembly, front, side and top panel

Main specifications

- Drum, volume litre: 61
- Diameter ø mm: 520
- Extraction, max rpm: 1100
- G-factor, max: 350
- Heating electricity kW: 5.4

Produced according to ISO 9001 and ISO 14001.

Certified with CB certificate for Low Voltage Directive and S-mark according to the Machinery Directive.

Protection class IP X4D.
